

# PACKAGE OFFER TO SUPPORT BUSINESSES DURING AND AFTER COVID-19

*Agile Management Group*

## WHO ARE WE

---

During this Covid-19 period, the majority of businesses and large corporations have been struggling with employees and short-term layoffs. We at Agile Management Group have therefore put together a package that we can offer our clients and those in need of this package to help keep a sustainable environment within the businesses.

Agile Management Group started out Januari 2018 with a vision to combine and take on an eclectic way of working when working with business development. We have specialized ourselves within Business Agility and during these two years we have offered many solutions to different businesses depending on their needs whether it has been support and expertise knowledge in the Agility department or if it has been within change management and how to motivate individuals in different situations. In everything we do, we have a human centric approach to ensure a sustainable agile way of working or within change/improvement management.

## WHAT WE CAN OFFER

---

Support the leaders in all matters regarding the employees, short-term layoffs, restructure etc.

Support the HR team in all matters regarding HR issues, handling conflictual situations etc.

We can infuse cognitive neuropsychology in the HR department focusing on how the tools can be used both proactively, to prevent individuals being unproductive or in worst case having individuals with long term sick leaves with difficult rehabilitations back to work, and also in the face of rehabilitation using the right tools to ensure a sustainable rehabilitation back to work.

Help create high performing individuals and teams, focusing on the way forward.

With a Human Factors focus, we can help in customizing the leadership programs or helping leaders to concentrate on developing people's ability to act in critical situations.

Support with the latest knowledge in Neuroleadership and the latest tools and techniques in psychology.

Helping with recruitment and everything regarding this process.
